## SUMMARY

---

SDET with 8+ years of experience in automation testing, framework development, and CI/CD. Proficient in Java, JavaScript, TypeScript, Selenium, Playwright, Mocha, TestNG, JUnit, and REST Assured. Skilled in POM design, API testing with Postman, and mocking with FastAPI. Strong in manual testing, problem-solving, and agile collaboration. Recognized with multiple awards, including Fynd Star Certificates (2023–2025) and Excellence Certificate from Yes Bank (2019).

## SKILLS

---

- **Programming Languages:** Java, JavaScript, TypeScript, Node.js
- **Test Automation:** Playwright (JS), Selenium WebDriver, Appium (basic), Mocha, TestNG
- **API Testing:** REST API validation, Axios API Testing, Postman, FastAPI (Mock APIs)
- **CI/CD Tools:** GitHub Actions, GitLab CI/CD, Azure DevOps, Jenkins, Docker
- **Build Tools:** Webpack, Babel
- **Database:** PostgreSQL, MongoDB
- **Cloud & DevOps:** AWS (S3, EC2, IAM), Docker, Kubernetes, Google Logs, Coralogix
- **Performance Testing and Security Testing:** JMeter, k6
- **Observability Platforms:** (Grafana, Kafka, New Relic)

## CERTIFICATIONS

---

- Software Testing course from Seed Infotech
- Intro to MongoDB course from MongoDB University

## PROFESSIONAL EXPERIENCE

---

**Johnson Controls International PLC, Bengaluru** April 2026 - Present

### Senior Software Test Engineer (Solution Navigator)

- Developed and maintained UI automation frameworks using Playwright and TypeScript following the Page Object Model (POM) design pattern.
- Created reusable fixtures, utilities, and helper functions to improve test maintainability and execution efficiency.
- Designed and executed end-to-end test scenarios across Chromium, Firefox, and WebKit browsers to enhance cross-browser validation.
- Collaborated with developers and QA teams in debugging issues, test planning, and regression validation.
- Contributed to regression automation efforts, reducing manual testing effort and improving release confidence.

SSSS

**FYND, Bengaluru**

July 2021 - Mar 2026

### Software Test Engineer (Marketplace Extension)

- Developed and maintained **Playwright (5 Year)** automation frameworks using **JavaScript (5 Year)**, implementing Page Object Model (POM), fixtures, custom utilities, reducing regression cycle time by 70%.
- Designed and executed end-to-end UI test suites across Chromium, Firefox, and WebKit environments, improving cross-browser coverage by 55%.
- Integrated automated test suites into Jenkins CI/CD pipelines with pipeline-as-code using Jenkinsfile, enabling automated nightly and on-demand builds.
- Automated RESTful API validations using Playwright API testing Using Axios and Mocha, achieving 100% API-level coverage for key services.

**Credentek Software & Consultancy Pvt Ltd, Pune**

Nov 2017 - Jun 2021

### Software Test Engineer (Fanatil)

- Created automation frameworks using Selenium with Java, reducing manual testing efforts by 40%.
- Conducted API testing using Postman and REST Assured, achieving consistent 100% coverage in regression cycles.

- Led UAT cycles, prepared test plans, test data, and execution summaries across 7 successful major releases.
- Conducted API testing using Postman and REST Assured (Java), achieving 100% test coverage.
- Created weekly and monthly project status reports, improving stakeholder satisfaction by 15%.

## EDUCATION

---

**Swami Vivekanand Subharti University, Prayagraj**  
**Bachelor of Computer Application** — Computer Science

Aug 2013-May 2016
